

Thank you for your interest in the Basic Magento Development course. In 2018, I helped write this test. In 2020, I helped update this test to be in line with Magento 2.3.

As such, I am blessed to have a good knowledge of what this test expects of its candidates. I pulled together this course to help you pass the Associate Developer certification (which has now been renamed to the AD0-E702 Adobe Certified Professional—Magento Commerce Developer certification).

Here is what some people say:

- I've passed associate exam today. Thank @Joseph Maxwell for associate project guide and the study guide. Mana Light
- The Joseph's triad makes the exam easy (Study guide, project guide and video series). 3innovaweb

Officially a Certified Magento 2 Associate Developer.

Special Regards to **Joseph Maxwell** for your valuable guide and YouTube tutorials.

And thanks to **Anup Wankhede Atul Joshi Harendra Singh** for your support too!!

● **#magento #magento2 #magentodeveloper #magentodevelopment #adobe #certification #magentocommunity**

The above are just a few things I've heard.

Now that I have “proven” the effectiveness of this teaching method, I have transitioned this course to a fee structure. The good news is that for my friends in India, Bangladesh and Pakistan, I have a 50% off coupon: 50OFFINDIA.

Sincerely,  
Joseph Maxwell
